SCOUTING
IRELAND

Issue 3 / 27 July '18

**DERVLA'S
HUB**

These scouts are learning how to communicate using pipes and bales of hay. A skill in high demand in the modern world.

The first of six programme days took place at JamboRí on Thursday.

The Scouts, Venture Scouts and Scouters of all ages have been having a blast.

We dropped into Dervla's Hub to see what was going on down there.

The Hub is where you will see all participants working in unison to complete their respective tasks.

It's a perfect metaphor for how Scouting can change the world, as tasks can only be completed when the Patrol works as one.

The activities include bike races, cooking challenges and

the Amazing Maze, which, we're told, is "amazing".

The inspiration for this programme zone is Dervla Murphy, and her incredible journey from Ireland to India on a bike in 1963.

This zone was very well received on Thursday by the participant Scouts from Krypton and assisting Venture Scouts from Panem on the "work" part of their "work 3 days, play 3 days" schedule.

Lili, who's leading her 22-strong group, Belval-Metzerlach, from the Luxembourg contingent said "All the kids are having fun as they've never had activities like this in Luxembourg, it's

something they definitely won't forget!" She thought the Venture Scouts were "very helpful in allowing everyone to understand the task at hand very well."

Dakota Rossel, (19), Ontario, Canada said "We had to climb into the Bush for a Frisbee, and by we, I mean Jake and Mike and I watched!" Good man Dakota, that's the spirit!

Be Safe, Be Healthy, Be Well, Santitize & Rí-hydrate

The friendly and uncommonly good-looking JamboRí Medical Team would like to remind all campers to make sure they have no reason to visit their team.

You'll have noticed that it can be warm and humid out there, and we're all busy walking, running, cycling, pumping, dumping and pumping.

This is why it's extra important to keep hydrated all day, everyday.

While water itself is great, when you sweat, you lose salts and electrolytes, so it's important that you include some salt in your diet. This can be found in crisps and processed meats, and of course table salt.

We've a recipe here to help you take on salt and water at the same time.

You can see a recipe for a simple way to keep up your salt and water levers on this page.

Another way to stay healthy is to ensure that we keep our hands clean, after using the

loos, before preparing food, and before eating food.

Hand sanitizer is available for use at all portaloos, and if you find that it is all gone, please report that to your Sub Camp or to Admin.

Every troop site, of course, should have a handwashing area, there is no substitute for hot, soapy water.

The Food Market Team are doing a great job in getting you fresh quality ingredients so it's your job to keep that food safe by storing it properly and cooking it until it is cooked.

Remember: Slip, Slap, Slop.

Slip on a tshirt, cover your shoulders

Slap on a hat

JamboJuice

- 500ml bottle of water (leave a bit of room for the other ingredients)
- Half a tablespoon of salt (yes, seriously, salt)
- Three spoons of sugar (so you can't taste the salt)
- Cordial for flavour
- Share this recipe!

Slop on some sunscreen.

When you stay healthy you can help others to stay healthy too.

Spot the Differences

There are four differences between the two photos. Can you spot them all?

Brought to you by the JamboRí Media Team, supported by the D-Rí-m Team, and the Scouting Ireland Communications Team.
